Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Status of the claims

1. Currently claims 1, 4-8, 21-24 and 26-29 are pending. Claims 9-17 are withdrawn from further consideration.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. **Claims 1, 4-8, 18, 21-24 and 26-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Matsunaga et al., (Matsunaga), USPAT 5,510,918.**

4. Matsunaga discloses a liquid crystal display having a structure wherein the structure (shown in Fig. 4) comprising:

- a first electrically conductive layer such as indium tin oxide (ITO) (d1);
- a second conductive layer (d2) (applicant's ozone resistant barrier layer) made of Mo, Ti, Ta, W etc. overlying the first electrically conductive layer (col. 7, lines 28-31); and
- a third conductive metal layer (applicant's metal layer) (d3) made of aluminum and having a thickness of 3000 Å to 5000 Å (overlaps the claimed range at greater than 1000 Å) overlying the second conductive layer (d2) (col. 7, lines 32-34).

As to using the structure in the fabrication of integrated circuit (IC) structures or

liquid crystal display reflector is considered as intended use and thus would have been obvious. Further, since the structure disclosed by Matsunaga is similar to the structure claimed, the function of the structure such as resistant to ozone stripping would have been obvious.

Accordingly, claims 1, 4-8, 18, 21-24 and 26-29 would have been obvious.

Response to Arguments

5. Applicant's arguments with respect to claims 1, 4-8, 18, 21-24 and 26-29 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

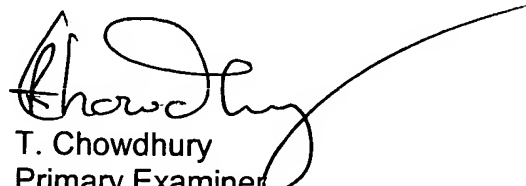

Art Unit: 2871

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
